

DEVELOPMENTS IN ELECTRONIC COMMUNICATIONS NETWORK AND SERVICES

US Court Voids Net Neutrality Regulations

A US court has rejected the Biden administration's bid to restore net neutrality rules that would have prevented operators from prioritising traffic carried over their networks. **Advanced Television** ([read more](#))

UK Regulator proposes lower Annual Licence Fees

The proposed changes include reductions for the 900 and 1800 MHz bands offset by an increase for the 2100 MHz band—resulting in an overall projected annual reduction of £40 million (\$49 million). **Policy Tracker** ([read more](#) – subscription required)

DEVELOPMENTS IN THE DIGITAL SECTOR

MEPs call for Debate on Elon Musk's 'Abuse of Social Networks'

The European Parliament's socialist and liberal groups have called for a debate on fake news and hate speech in the next Strasbourg plenary on 20-23 January. **Euractiv** ([read more](#))

Zuckerberg calls on US to defend Tech Companies against European 'Censorship'

Meta CEO Mark Zuckerberg has doubled down on his offensive against EU regulation in a three-hour appearance on The Joe Rogan Experience podcast after a week of acrimony in Europe over his announcement to end fact-checking on his platform. **Euractiv** ([read more](#))

DEVELOPMENTS IN THE POSTAL SECTOR

bpost Trials Label-Free Parcels

bpost is launching a pilot project that allows customers to send items without packaging or labels by simply dropping them off in a Parcel locker. **Post & Parcel** ([read more](#))
